

Gelair™
Tea Tree Oil - Nature's Best

Gelair™ Health-e CAR installed in the cabin air filter system provides a safe and effective way control mold, bacteria and viruses in your vehicle. The health living technology in Gelair™ Health-e CAR delivers controlled and sustained Australian Tea Tree Oil vapour throughout your vehicle killing mold, bacteria and viruses with no maintenance requirements of additional energy costs.

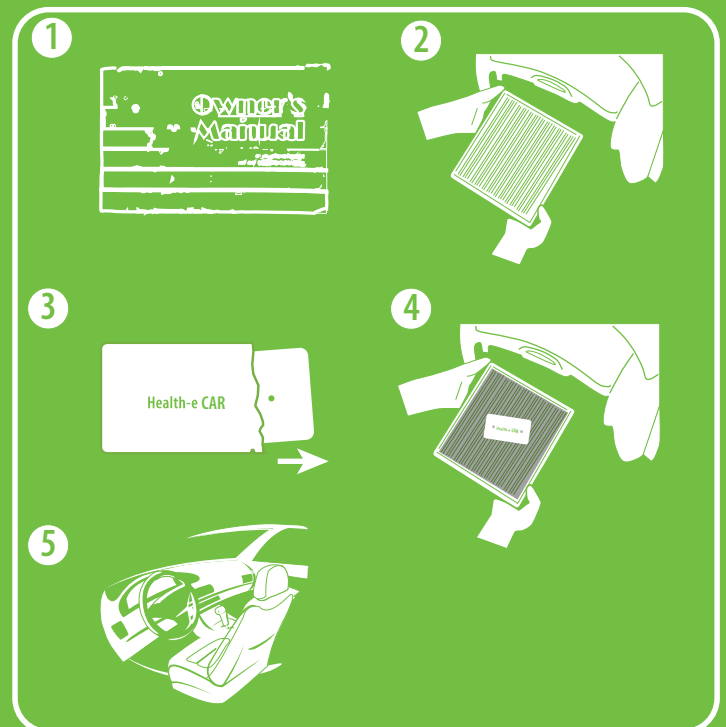

Instructions for Installation

* It is recommended that Gelair™ Health-e CAR is installed by a qualified technician.

- 1 Consult vehicle Owner Manual to identify position of cabin air filter.
- 2 Access cabin air filter system.
- 3 Open the Health-e CAR package and remove the inner sachet (with 2 holes).
- 4 Place the Health-e CAR inner sachet directly on to the filter panel.
- 5 Close access point to cabin air filter system.
- 6 Replace sachet as necessary.

Gelair™ Health-e CAR is available in six (6) fragrances and will last up to 12 weeks depending on air flow. The fresh Tea Tree Oil aroma may be stronger immediately after installation.
