

# Gelair™

Tea Tree Oil - Nature's Best

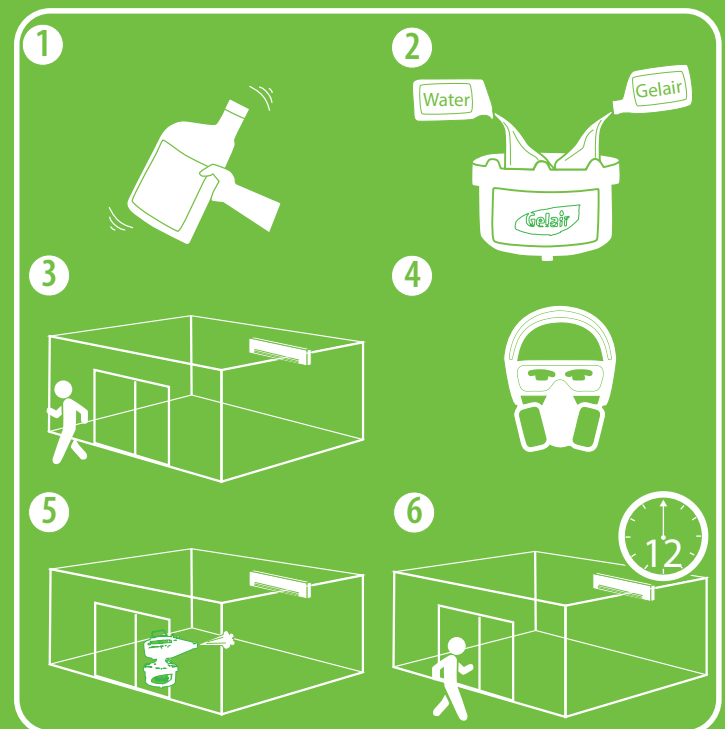

Gelair™ Fogging Solution is used for extensive mold or bacteria infestation which requires rapid and effective treatment and control. Once dispersed through the cold Fogging Machine, Gelair™ Fogging Solution penetrates rapidly into hard to reach zones killing mold and bacteria. It can also be applied inside air conditioning systems to control mold within ducting.

## Instructions for Use

- 1 Shake well before use.
- 2 Pour Gelair™ Fogging Solution into Fogging Machine. Solution may be diluted 1:1 with water.
- 3 Ensure building is clear of occupants.
- 4 Wear safety goggles and face mask with organic vapour respirator cartridge.
- 5 Apply approximately 1 litre of solution per 200 m<sup>2</sup> of floor space using a droplet size of 20 micrometres.
- 6 Allow 12 hours with air conditioning on before re-entering treated zones.
